The stud fee entitles the mare owner to a live foal guarantee, with a live foal conceived from this breeding that will stand and nurse after foaling without assistance and lives for 24 hours. If the mare is found not in foal or delivers a stillborn, the mare owner is allowed to a rebreed contract, if agent Volker Laves is notified within 30 days of discovering the mare is open or the foal is stillborn, with the statement of a licensed veterinarian. Rebreed contract will apply to the following breeding season only.

After approved payment of the breeding fee and frozen semen fee, the mare owner can order the first shipment of frozen semen for 2 inseminations (8 straws per insemination) with a minimum of 3 days in advance. 1 Additional portion of frozen semen (8 straws per insemination) can be ordered if the mare did not get pregnant. Shipping and container lease/return will be billed from Select Breeders Southwest to the mare owner.

Mare owner agrees to notify Volker Laves of the pregnancy status of the mare till August 31st, 2022. Mare with an unknown pregnancy status will not be included in the stallion breeding reports.

The mare owner will send a copy of the mare's registration certificate with the stallion service contract.

The mare owner will pay all fees from the European Semen depot: shipping fees, Container lease, container return freight within 5 working days. Health paper cost if shipped outside Germany.

Stud fee and frozen semen fee must be paid in full before frozen semen will be shipped.

All foals can be nominated to the NRCHA USA Program **2023**
